Shameful Slaughter of Game in the Salmon River Country.

RUNNING DOWN CULPRITS

Deer and Elk Shot, Polsoned and Trapped by the Hundreds-Violating the

Special Correspondence of the Standard.

IDAHO CITY, Dec. 13 .- For the past two weeks several men have been vending deer and elk hides through county. It is known that they sold four or five hundred. Several parties attempted to secure testimony against them for violations of the game law, but were unsuccessful until Sylvester and Lee Bunch came here a few days ago. Be-sides their own testimony they gave the names of other witnesses and warrants were issued for the arrest of two hunters that had spent the summer in the Salmon River country slaughtering deer and elk for the hides alone. While far away in the mountains, where they be-lieved themselves secure, they shot, trapped, and, it is believed, even poisoned deer and elk. The hides were tanned on the ground. Sheriff Havird caught one of the men in Garden valley last Friday and brought him here. When arrested he rant for his partner. The evidence against them seems conclusive. If they are con-victed Judge Marsk will certainly sen-tence them to the full extent of the law. The men are from Oregon.

This fall, owing to the heavy slaughter of deer and elk during the summer, but ry few are coming out of the mountains. The laws for the protection of game and fish must be very rigidly enforced or it will be but a few years hence when there will be none left. The Payette lakes and the lakes of the Salmon river were a few years ago filled with red fish, which are delicious, but now there are only a very few. Had the laws against seigning them been enforced they would be as plentiful to-day. The people of this county are manimously in favor of a law providing for a game and fish commissioner, with to make arrests and send men out to see that the laws are not violated. Cersomething out to be done, and without delay. It will not do to wait any

TRYING TO KILL HIPPOLYTE. A Sensational Story From the Republic

of Hayti.

New York, Dec. 15.—W. A. Griffin and Clarence B. Riker of this city, passengers on the steamship Adriondack, which arrived from Kungston, Jamaica, Tuesday, give reports of the attempt to kill President Hippolyte of Hayti. The story of the attempted assassination, as they heard it, is as follows: President Hippolyte was in bed in his palace when one Artea saw a man slipping along the corridor towards the room. The attendant grappled with the man and was stabbed in the shoulder. dants cai bound. He was asked what his object was in visiting the palace and said: "To kill Hippolyte." He was then taken out and shot. An investigation was made and it was found that the man got into the grounds by breaking through a fence. The next day six of the guards were shot for allowing the man to get into the house and the lieutenant who commanded them was sentenced to be shot. The son of Hippolyte, however, interceded for the lieutenant and his life was spared, though he is still in prison. It is believed the attempted assassination was the result of a conspiracy in which the people in Hippo-lyte's household are implicated.

CHEATED THE HANGMAN. Murderer Benson Ends His Life in the

Leavenworth Jail. LEAVENWORTH, Kas., Dec. 16.—Early this morning C. A. Benson, Theresa Mettmans' murderer, made a vigorous attack with a murderous knife upon Captain Morgan, the aged death watch. Beuson slashed and cut him about the face in a terrible manner. His wounds, however, are not considered dangerous. The old man pleaded so hard for mercy that Benson said he could not find it in his heart to kill him. The disturbance brought the jailers and as they were coming up stairs, Benson plunged the knife twice into his left side. The condemned man told them he had taken poison and would die in five minutes. It has been discovered the nature of the poison Benson took. At noon be was in an unconscious condition, and efforts to revive him proved fruitless. The wounds in his breast have a horrible appearance. They would prove fatal without the aid of poison.
